Jl. Mandai II No. 17, Depok City, 16417, Indonesia.

## INFORMATICS ENGINEERING

---

Fullstack Developer with hands-on experience in developing and maintaining web applications using Laravel, CodeIgniter, Node.js, and ASP.NET. Experienced in building scalable APIs, optimizing database performance, and integrating third-party services. Passionate about delivering efficient, maintainable code and solving complex backend and frontend challenges.

## RECENT PROJECTS

---

### Opac Jurnal Perpustakaan UHAMKA

<https://ojp.uhamka.ac.id/>

Developed a web-based journal search system integrated with an AI chatbot using Laravel and Flowise AI, improving journal accessibility and research efficiency for UHAMKA students through optimized performance and scalable architecture.

### Teknoka

<https://teknoka.uhamka.ac.id/>

Developed and maintained the TEKNOKA web platform for UHAMKA's national conference using CodeIgniter, supporting journal submission, review, and publication with improved performance and system reliability.

### Pencarian Mahasiswa Lampau

<https://mbkm-lldikti3.kemdikbud.go.id/nirm/>

Developed a student data search system for LLDikti Region III Jakarta using the Laravel framework, designed to help staff efficiently validate student records as part of the graduation verification process.

## PROFESSIONAL EXPERIENCE

---

### Fullstack Developer at PT. Daya Medika Pratama

Oct 2025 - Oct 2025

Improved and maintained ASP.NET APIs, integrated .NET systems with third-party services, and developed scalable microservices using Node.js. Optimized SQL Server stored procedures to enhance performance, reliability, and system efficiency.

### Back End Engineer Teknoka 8 & 9

Sep 2023 - Nov 2024

Contributed to the development of the TEKNOKA web platform using CodeIgniter, improving system performance, reliability, and user experience. Enhanced database efficiency, optimized website speed, and collaborated with the team to refine UI/UX and key journal submission features.

### Application Developer intern at LLDikti Wilayah III

Feb 2024 - Jun 2024

Developed and maintained multiple information systems for LLDikti Region III Jakarta, including a student data validation system, a university map application, and a legacy student search platform for pre-2003 graduates. Redesigned and deployed the Pevita login system to improve accessibility and support institutional data verification processes.

## EDUCATION

---

### Universitas Muhammadiyah Prof. Dr. Hamka (UHAMKA)

Aug 2021 - Aug 2025

Bachelor of Informatics Engineering — GPA: 3.66 / 4.00

## CERTIFICATIONS

---

HTML5 Application Development Fundamentals — Microsoft
